- **Festivals**, museums and talented performing **arts** companies
- Easy access to **parks and wilderness** to enjoy **outdoor activities**

"I came to Canada with the idea of improving my English. I looked for an institution that could prepare me for my university journey. I tried several institutions but the one I found to be successful is the English

Intensive Program at the University of Ottawa. I admire this program for various reasons. One of which is its **multicultural environment**, where I met students from all over the world. Also, the EIP organizes **events and activities** weekly which was very refreshing and helped me get to know the Canadian culture better. The EIP has so much more to offer. I enriched my English and had so much fun at the same time.

Incredible experience! -JAMAL

"The unique cultural experience in the English Intensive Program certainly broadened my horizon. Through this program, I have become **more confident** and made lots of sincere friends from all over the world. Besides, I have also gained in-depth understanding on how to **better communicate** with people from different cultural background, which would probably be of great value for my future career." -ANNY
